

Installing fonts on Windows

1. From the Start menu, choose Settings, Control Panel

2. Click on Fonts

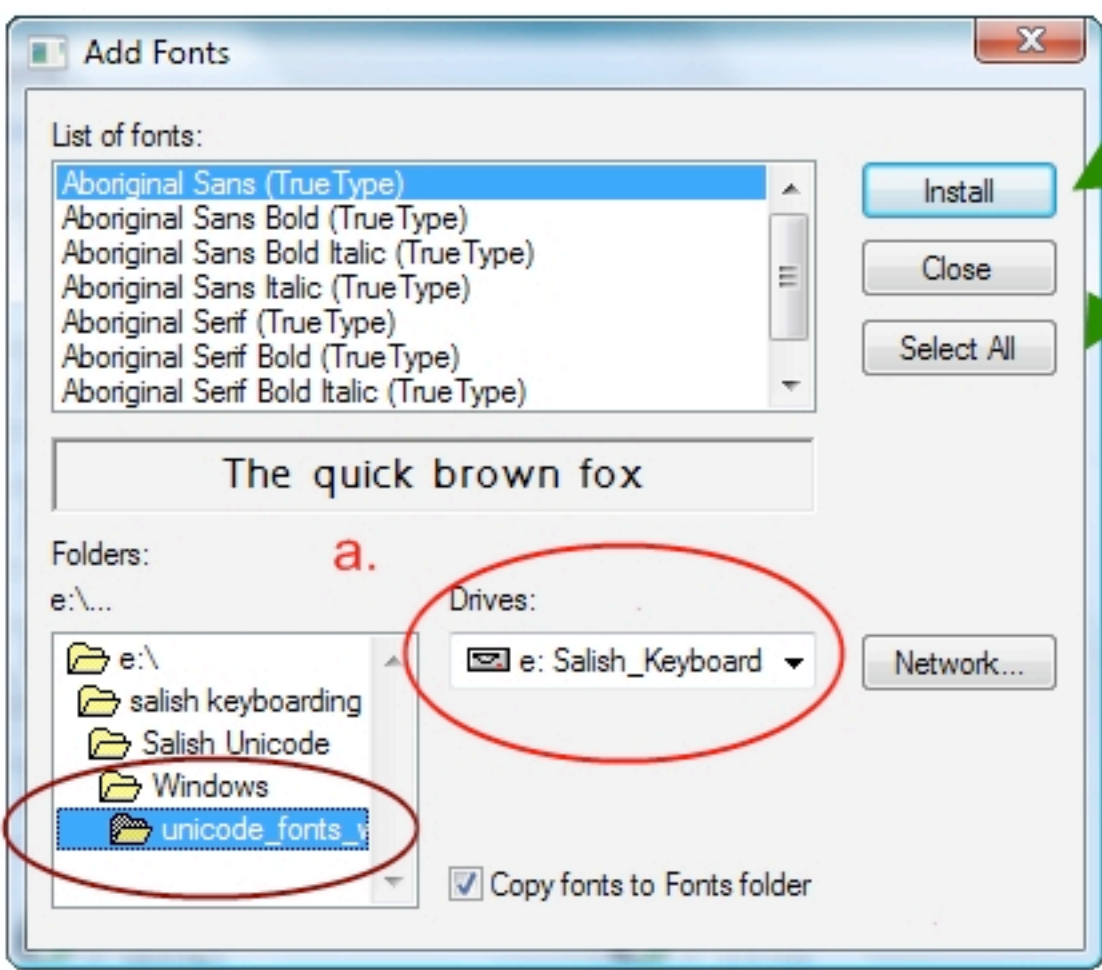

3. From the File menu Choose Install New Font...

4. Choose the fonts from the folder on your install disk.

- a. Select the CD Drive
- b. Open the folder for the Windows fonts:
Salish Keyboarding > Salish Unicode >
Windows > Unicode_fonts_windows

- c. Click Select All and then Install.

(Make sure that 'Copy fonts to Fonts folder' is checked)
